**MATERIALS**

**Monochrome** Clear anodized aluminum housing & hooks  
**Color** Satin bone white power coated housing,  
Color anodized aluminum hooks

**DESCRIPTION**

This playful but sophisticated coat rack was the result of a domestic argument. We were out of closet space, and the coats were overflowing. But we had an aversion to wall hooks – empty and unattractive many months out of the year. We created the Symbol, a practical object we're happy to look at year-round. During the coatless summer months the Symbol hangs as a purely aesthetic piece, as the hooks lay flat and belie their function. When needed, the hooks pull smoothly out to help you organize your stuff. Available in monochrome aluminum, or in white with vibrant anodized colors, the Symbol helps to keep your home photo ready - with or without the coats.
