

**DIMENSIONS**

6"h x 2"w x 1"d

MATERIALS

Brushed stainless steel, satin nickel finished door viewer (fabricated with brass) with plastic lens

DESCRIPTION

Inspired by our original Pendulum Door Knocker, the AP Door Knocker maintains the same minimal elegance in a smaller size. Designed with apartment living in mind, the new AP Door Knocker is available with or without an integrated door viewer (also known as a "peephole"). The door viewer provided offers a viewing radius of 160 degrees and is adjustable to fit doors 1 3/8" to 2" thick.
