DESCRIPTION

For our modern take on the classic favorite, we were inspired by the living quality of a lit chandelier. With attention to every edge and surface, we crafted a piece of depth and vibrancy that reflects a candle's glow in strips and slivers. Once suspended, the pendants take on a life of their own as the luminous shapes dance in midair. Conceived as the contemporary charms of a design-it-yourself chandelier, the pendants invite your personal sensibilities of composition and style. Sold as a set of 3.
