**MATERIALS**

**Monochrome** Clear anodized aluminum housing & hooks  
**Color** Satin bone white power coated housing,  
Color anodized aluminum hooks

**DESCRIPTION**

The Symbol 20 offers everything our classic Symbol Coat Rack does, now in a shorter length to fit in more places. This modern coat rack is both a practical storage option and an aesthetic piece. During the summer months the Symbol 20 hangs on the wall as a purely aesthetic piece, as the hooks lay flat and belie their function. When needed, the hooks flip down smoothly to help you organize your things. The coat rack is 1.5" deep with the hooks up, and 4.25" when the hooks are flipped down. Made in the USA. Mounts to the wall using a sturdy cleat, and holds up to 45 lbs.
